《实现全球经济的可持续社会》

内容概要

This important book explores alternative strategies in agricultural and rural development to address the impacts of globalization processes on smallholder agriculturalists and marginalized rural people. Its goal is twofold: (1) to identify and assess the key processes by which globalization is affecting the smallholder agricultural and rural sectors; and (2) to identify and propose both micro- and macro-level policies and other strategies to deal with the problems that arise. This volume presents writings of leading scholars and practitioners working in the private and public sectors. Their work focuses on major crosscutting issues in the developing world and on country-specific case studies.

《实现全球经济的可持续社会》

书籍目录
