

《Advances in Web-Age》

图书基本信息

书名：《Advances in Web-Age Information Management网时代信息管理进展》

13位ISBN编号：9783540292272

10位ISBN编号：3540292276

出版时间：2005-11

出版社：北京燕山出版社

页数：930

版权说明：本站所提供下载的PDF图书仅提供预览和简介以及在线试读，请支持正版图书。

内容概要

This book constitutes the refereed proceedings of the 6th International Conference on Web-Age Information Management, WAIM 2005, held in Hangzhou, China, in October 2005. The 48 revised full papers, 50 revised short papers and 4 industrial papers presented together with 3 invited contributions were carefully reviewed and selected from 486 submissions. The papers are organized in topical sections on XML, performance and query evaluation, data mining, semantic Web and Web ontology, data management, information systems, Web services and workflow, data grid and database languages, agent and mobile data, database application and transaction management, and 3 sections with industrial, short, and demonstration papers.

书籍目录

Keynote and Invited Talks What the Web Has Done for Scientific Data - and What It Hasn't Integrity Theory for Resource Space Model and Its Application Challenges of Grid Computing
Research Session 1: XML BBTC: A New Update-Supporting Coding Scheme for XML Documents Using XML Structure to Reduce Candidate Nodes Participated in Query Processing An Effective and Efficient Approach for Keyword-Based XML Retrieval Subgraph Join: Efficient Processing Subgraph Queries on Graph-Structured XML
Document
Research Session 2" Performance and Query Evaluation A Soft Real-Time Web News Classification System with Double Control Loops Searching the World Wide Web for Local Services and Facilities: Review on the Patterns of Location-Based Queries Self-adaptive Statistics Management for Efficient Query Processing Design and Implementation of the Modified R-Tree Structure with Non-blocking Querying
Research Session 3: Data Mining (I) Importance-Based Web Page Classification Using Cost-Sensitive SVM An Efficient Approach for Interactive Mining of Frequent Itemsets Similarity Search with Implicit Object Features An Improved FloatBoost Algorithm for Naive Bayes Text Classification
Research Session 4" Semantic Web and Web Ontology An Approach to RDF(S) Query, Manipulation and Inference on Databases Clustering OWL Documents Based on Semantic Analysis An Ontology Based Approach to Construct Behaviors in Web Information Systems A Semi-automatic Ontology Acquisition Method for the Semantic Web
Research Session 5: Data Management (I) Watermarking Abstract Tree-Structured Data.....
Research Session 6: Information Systems
Research Session 7: Web Services and Workflow(I)
Research Session 8: Data Management(II)
Research Session 9: Data Grid and Database Languages
Research Session 10: Agent and Mobile Data
Research Session 11: Data Mining(II)
Research Session 12: Web Services and Workflow(II)
Research Session 13: Database Application and Transaction Management
Industriar Seesion
Short Papers and Demonstration
