《(爱的相册 (《生活》 杂志摄影精选)》

内容概要

LIFE was founded in 1936 and its indelible photography has helped millions of Americans define the world around them ever since. In this very special gift book we are treated to the most romantic photographs ever to appear in the magazine - a passionate gallery of hugs, kisses, caresses and embraces. From an old couple walking hand in hand to young lovers sharing a tender moment in a graveyard, from tentative first kiss to a tender nuzzle every picture tells a story and captures one of the many facets of love.

精彩短评

- 1、一年四季。均宜。
- 2、印刷糟糕 . . . 设计一般，有几张玛格南摄影师的作品而已。
