《起世因本经(僧伽罗语)》

内容概要

This book, 'Agganna Sutta Anuvadaya', written in Sinhala, includes the Sinhalese translation of Agganna sutta. The main point of the Agganna Sutta is to refuse misleading and wrong theories about all castes and creeds. It shows that all human beings have been generated by a one single cause irrelevant of their colour or their language. This is a good book with its exciting presentation of the theory of how the world came to being with its living creatures.

精彩短评

1、起世经标注代替。起世经，起世因本经，大楼炭经，世记经，四个译本都大略看过了。经中还提到了“也许是”基督教的耶和华创世论的真相，佛陀正遍知果然是圆满觉者啊！
