# 《褒嘉Bogie: A Celebrat》

## 内容概要

By Richard Schickel and George Perry, Foreword by Stephen Humphrey Bogart

Richard Schickel assesses the career and enduring legacy of Humphrey Bogart, while editor George Perry provides a detailed review of the films he made over the decades, with a particular focus on his key roles. Published with the authorization of the Estate of Humphrey Bogart, this official celebration is a fitting tribute to a much-loved star. In all, Bogart appeared in over seventy-five films, and consistently lived up to his own definition of stardom--"you have to drag your weight at the box office and be recognized wherever you go"--and was later adopted as a cult figure by a new generation of fans, who saw him as an existentialist hero. Five decades after his death, he remains an invigorating presence in our imaginations.
