《Zakim & Boyer肝脏病学两卷》

内容概要

Long considered the defining work in Hepatology, this trusted 2-volume masterwork has been refocused to zero in on just the clinical knowledge you need to provide today ' s best patient care. The most comprehensive text on the subject, this book is still thoroughly grounded in basic science—but now that science is focused on the most clinically relevant developments. Find definitive coverage of all aspects of liver disease in a new full-color format that keeps pace with your evolving practice.* Covers all liver diseases currently seen in clinical practice—in two clinically focused volumes. * Replaces previous editions ' basic science section with the new, more concise "Pathophysiology of Therapeutic Targets" section. * Highlights key references, all current and up to date, to help you get straight to the significant literature. * Contains new contributions from recognized experts worldwide. * Presents hundreds of detailed illustrations, now in full color!

书籍目录

Contributors, Preface, Acknowledgements, xv
SECTION I: Pathophysiology of the Liver 1. Anatomy of the Liver, 2. Liver Regeneration, 3. Mechanisms of Liver Cell Destruction, 4. Pharmacogenetics: Focus on the Liver, 5. Mechanisms of Bile Secretion, 6. Hepatic Fibrosis and Cirrhosis, 7. Replication of Hepatitis B Virus and Pathogenesis of Disease, 8. Replication and Pathogenesis of Hepatitis C Virus, 9. The Liver and the Immune System, 10. Molecular Pathogenesis of Hepatocellular Carcinoma, 11. Stem Cells and Hepatocyte Transplantation, SECTION II: Approach to the Patient with Liver Disease 12. Liver Biopsy Techniques, 13. Liver Biopsy Histopathology, 14. Laboratory Testing for liver Disease, 15. Critical Evaluation of the Specificity and Sensitivity of Liver Imaging, 16. Evaluation of the Specificity and Sensitivity of Biliary Imaging, 22. Renal Dysfunction in Cirrhosis: Pathophysiology, Clinical Features and Therapy, 23. Clinical Consequences of Liver Disease: Cardiovascular, 24. Pulmonary Complications in Patients with Liver Disease, 25. Hematopoietic Abnormalities and Hemostasis, SECTION IV: Toxin Mediated Liver Injury 26. Drug-Induced Liver Injury, 27. Hepatotoxicity of Herbal Preparations, 28. Occupational and Environmental Hepatotoxicity, 29. Alcoholic Liver Disease, SECTION V: Liver Diseases Due to Infectious Agents 30. Hepatitis A, 31. Hepatitis B, 32. Hepatitis C, 33. Hepatitis D, 34.
