《心理追凶The Wire in the 》

内容概要

Taut, suspenseful and ferociously readable thriller featuring psychological profiler Dr Tony Hill, hero of the hugely successful television series ‘ The Wire in the Blood ’

Young girls are disappearing around the country, and there is nothing to connect them to one another, let alone the killer whose charming manner hides a warped and sick mind. Nobody gets inside the messy heads of serial killers like Dr Tony Hill. Now heading up a National Profiling Task Force, he sets his team an exercise: they are given the details of thirty missing teenagers and asked to use their new techniques to discover whether there is a sinister link between any of the cases. Only one officer comes up with a concrete theory – a theory that is ridiculed by the group... until one of their number is murdered and mutilated. For Tony Hill, the murder becomes a matter of personal revenge, and joined by colleague Carol Jordan, he embarks on a campaign of psychological terrorism – a game where hunter and hunted can be all too easily reversed.
