《Indian and Persian T》

内容概要

Reproduced from an extremely rare and valuable portfolio, these lovely textile designs span centuries of Middle and Far-Eastern art. From the vibrant hues of florals and winged creatures to graceful depictions of the human figure, nearly 100 motifs will add an exotic touch wherever they are used. Dover "Full-Color Electronic Design" series include: brilliant full-color, royalty-free illustrations and designs for art, craft and hobby use. Each set features one CD-ROM containing hundreds of images scanned at 300 dpi and saved in TIFF format, a large-format book with every image on the CD-ROM printed large and clearly for easy reference and direct use. It is "Mac" and "Windows" compatible.
