《建筑与室内设计 Guild Sourc》

内容概要

For more than twenty years, The Guild Sourcebooks have introduced art collectors and design professionals to artists who undertake commissions of all sizes. This is art on a grand scale. And in this, our twenty-second edition, we continue to celebrate pieces of original artwork designed to take center stage in our built environment. The work of over 200 of the finest artists creating for the architectural, decorative, and fine arts is showcased in this volume. The Sourcebook of Architectural & Interior Art continues to be a collaborative publication that we're delighted to share with the those who use the books, with marvelous and imaginative results. Complete contact information allows readers to reach artists directly to commission a project in sections devoted to: architectural glass; murals, tiles, and wall reliefs; representational, non-representational, and atrium sculpture; public and liturgical art; lighting; paintings, prints, and photographs; works for the wall in metal and other media; and fiber art.
