《Sinatra的照片、纪念品、乐恰

内容概要

The first-ever collection from the archives of the legendary Chairman of the Board, filled with never-before-seen photos, letters, mementos, and more. What is a legend? A legend is a man who, more than 65 years after stepping on stage for the first time, is still larger than life. A man who changed the way we wear our hats. A man possessed not of a voice, but The Voice. Frank Sinatra is a legend. Created in conjunction with the Frank Sinatra Estate, THE SINATRA TREASURES tells the story of Sinatras life with rare and never-before-published quotes from those he loved and those he worked with--and from the Chairman of the Board himself. More than 200 black-and-white and full-color images from several Sinatra archives, as well as 30 removable facsimile reproductions of items, such as a script from one of his radio shows and a Sinatra family photo album, provide a behind-the-scenes glimpse into Sinatras world and talent. Also included is a new compilation CD of rare interviews, early radio appearances, and songs. This celebration of the many elements of Frank Sinatra--as singer, as actor, as humanitarian, as friend--brings to life as never before the man who made the standards standard.
