《突击点 Shock Point》

内容概要

Sixteen-year-old Cassie 's stepfather Rick is about to strike it rich with Socom, a new behavioral drug in which Rick is a big investor. But then Cassie discovers that Rick, a teen psychiatrist, has already been prescribing Socom illegally to his patients—and three teens have died. Before she can report him, Rick has Cassie committed to Peaceful Cove, a sadistic boot camp for troubled teens in Mexico where the only way out is to graduate at age eighteen. Cassie knows she has to get out now, before more teens die from Socom. But no one has ever escaped from Peaceful Cove alive—and even if Cassie gets over the walls and survives the Mexican desert, will anyone believe her story? A taut, psychological thriller ripped from today 's headlines, Shock Point deftly explores the cutting edge issue of behavioral drugs while taking readers on a roller coaster ride of action and suspense.
