内容概要

This book constitutes the proceedings of the 6th International Conference on Web Information Systems Engineering, WISE 2005, held in New York, NY, USA, in November 2005. The 30 revised full papers and 20 revised short papers presented together with 18 poster papers were carefully reviewed and selected from 259 submissions. The papers are organized in topical sections on Web mining, Web information retrieval, metadata management, ontology and semantic Web, XML, Web service method, Web service structure, collaborative methodology, P2P, ubiquitous and mobile, document retrieval applications, Web services and e-commerce, recommendation and Web information extraction, P2P, grid and distributed management, and advanced issues. The presentation is rounded off by 14 industrial papers and the abstracts of 4 tutorial sessions.

书籍目录

Web Mining Mining Communities on the Web Using a Max-Flow and a Site-Oriented Framework A Web Recommendation Technique Based on Probabilistic Latent Semantic Analysis Constructing Interface Schemas for Search Interfaces of Web Databases Web Information Retrieval Temporal Ranking of Search Engine Results Evaluation of Result Merging Strategies for Metasearch Engines Decomposition-Based Optimization of Reload Strategies in the World Wide Web Metadata Management An Ontological Approach for Defining Agents for Collaborative Applications Improving Web Data Annotations with Spreading Activation Semantic Partitioning of Web Pages Ontology and Semantic Web A Formal Ontology Reasoning with Individual Optimization: A Realization of the Semantic Web oMAP: Combining Classifiers for Aligning Automatically OWL Ontologies Semantic Web Technologies for Interpreting DNA Microarray Analyses The MEAT System XML Extracting Global Policies for Efficient Access Control of XML Documents Querying and Repairing Inconsistent XML Data Towards Automatic Generation of Rules for Incremental Maintenance of XML Views of Relational Data Web Service Method A Methodological Approach for Incorporating Adaptive Navigation Techniques into Web Applications A Web Service Support to Collaborative Process with Semantic Information Server-Side Caching Strategies for Online Auction Sites Web Service Structure Maintaining Consistency Under Isolation Relaxation of Web Services Transactions..... Collaborative Methodology P2Om Ubiquitous and Mobile Document Retrieval Applications Short Paper Session 1: Web Services and ECommerce Short Paper Session 2: Recommendation and Web Information Extraction Short Paper Session 3: P2P, Grid and Distributed Management Short Paper Session 4: Advanced Issues Poster Flash Session 2 Industry-1: Semantic Web Industry-2: SOA Industry-3: BPM Industry-4: Web Infrastructure Tutorials and panels Poster Author Index
