章节摘录

版权页： 插图： People used to say : " Behind every successful man there's a woman." Some women still like making their husbands and sons successful. But some women want more for themselves. They want good jobs. When they work, they want good pay. They want to be as successful as men. Today the best jobs are still given to men. Even when women do the same work, they are often paid less than men. Women want these things changed. The women's liberation movement was started by women who didn't want to stand behind successful men. They wanted to stand beside men, with the same chance for success. The movement is quite new, and many American women do not agree with its purposes (目的). But it has already made several changes in women's lives-and in men's lives, too. () 1. The sentence "Behind every successful man there is a woman" means A. there is a woman standing behind every successful man B. women's support to men is the most important factor(因素) of men's success C. every success depends on both a man and a woman D. men can't be successful without women () 2. The second paragraph tells us women want to be as successful as a man. A. all women B. every woman C. not all women D. not every woman () 3. Which of the following still exists in the US today? A. Men can get the best jobs but women can't. B. Women can't get equal pay for equal work.
