内容概要

在线阅读本书

Angel Financing for Entrepreneurs will give you the information you need to understand how angel investors think, as well as how to identify investor expectations, understand the investment analysis process, and prepare for post – investment requirements. Written by Susan Preston, an experienced angel investor, worldwide speaker and consultant on angel financing, and former Kauffman Foundation Entrepreneur – in – Residence, this hands – on resource, explains the factors that determine how private equity investors spend their money and what they expect from entrepreneurs. For example: Most venture capitalists do not invest in seed or start – up financing rounds. Investors typically require seasoned management, with successful start – up experience. Investors are looking for entrepreneurs with passion for their ideas and the willingness to take and apply sound advice. Business plans must be well – written with detailed financial projections that extend 3 – 5 years. Investors are looking for a clear path to profitability in the business model. Entrepreneurs must have developed a corporate structure that is clean and uncomplicated. And much more.
