《Open House: Intellig》

内容概要

The focus of our request potential influence of digital technologies and innovative materials on domestic living in the near future. We were not interested in extrapolated scenarios of contemporary conditions, but in radical, experimental concepts that would take into account the challenges presented by changing demographics and rapid advancements in technology, independent of economic factors.

《Open House: Intellig》

精彩短评

1、 Architecture visions of the previous centry have became everyday phenomena in today's world
