# 《口腔急症Medical Emerge》

## 内容概要

This new text outlines a practical framework for treating both common and uncommon emergencies in the dental office. It also promotes an understanding of the many underlying disease states that can precipitate such emergencies. A wide variety of medical emergencies, ranging from treating a child with an epileptic seizure to treating a schizophrenic patient, are discussed and illustrated with real-life case scenarios. This logical approach to diagnosis and treatment of medical emergencies presents a concise review of pathophysiology to support clinical correlations. Medical Emergencies in Dentistry provides a solid foundation in assessment, problem-based decision making, and disease that helps clinicians react quickly and decisively when time is of the essence.

## 精彩短评

1、对于这种原版的专科书我可是下了很大的决心和勇气才买的。绝对是那种狠一狠心的心态。书很快就收到的，很好。是SAUNDERELSEVIER这个很权威的出版社的书籍。外国人编的东西和中国人的还是有很大差别的，他们考虑的东西更多更细一些。在这本书中甚至有一章节专门谈及对于是有宗教信仰的人急诊处理的一些方法，这个，至少在我目前看过的书中是向来没有被提及过的东西，或许这种细节在我们看来根本就不屑被列入考虑范围，更不用说是写入书籍中了。决定好好研究这本书，我想是可以学到很多东西的：) 推荐！
