《1001种浴室创意 1001 Idea》

内容概要

Over the last ten years a luxurious bathroom has moved higher up the list of priorities for homeowners. Only kitchens are more critical to a home's appeal. This can hardly be considered surprising. Much of the population reports experiencing extreme stress on an ongoing basis. In today's fast-paced society, people want - no, they need - a place to relax and pamper themselves. More and more often, that place is the bathroom.
