《Alfred Hitchcock in》

内容概要

Fully Authorized by the Hitchcock Estate and Universal Studios!

The year is 1957, and the sun-tanned citizenry of Los Angeles is in the grip of a bizarre series of murders. Alfred Hitchcock is developing his latest film when he receives a painting from an old friend and director. Shortly after receiving it, his friend turns up murdered, and the painting becomes a clue to the identity of the criminal who has paralyzed the city. Joining forces with an L.A.P.D. detective, Hitch sets out on a trail that takes the pair from the mansions of Beverly Hills to the haunts of forgotten starlets and the docks of Long Beach Harbor, as the mystery grows more and more like a thrilling Hitchcockian film itself.
