

图书基本信息

书名：《Advances in Information Systems(信息信息系统进展/会议录系统进展/会议录)》

13位ISBN编号：9783540234784

10位ISBN编号：3540234780

出版时间：2003-11-1

出版社：Springer

作者：Yakhno,Tatyana

内容概要

This book constitutes the refereed proceedings of the Third International Conference on Advances in Information Systems, ADVIS 2004, held in Izmir, Turkey in October 2004.

The 61 revised full papers presented were carefully reviewed and selected from 203 submissions. The papers are organized in topical sections on databases and datawarehouses, data mining and knowledge discovery, Web information systems development, information systems development and management, information retrieval, parallel and distributed data processing, multimedia information systems, information privacy and security, evolutionary and knowledge-based systems, software engineering and business process modeling, and network management.

书籍目录

Databases and Data Warehouses

- Temporality in Databases
- On Uncertainty and Data-Warehouse Design
- A Data Warehouse Engineering Process
- Aggregation and Analysis of Spatial Data by Means of Materialized Aggregation Tree
- An Object-Oriented Framework for Reconciliation and Extraction in Heterogeneous Data Federations
- On Optimising Data Access Via Materialised Methods in Object-Oriented Systems
- Some Modifications of Bucket-Based Algorithms for Query Rewriting Using Views

Data Mining and Knowledge Discovery

- A Data Mining Application on Air Temperature Database
- Incremental Association Rule Mining Using Materialized Data Mining Views
- Outlier Effects on Databases
- Finding Maximal Similar Paths Between XML Documents Using Sequential Patterns

Web Information Systems Development

- Using Ontologies for Collaborative Information Management: Some Challenges and Ideas
- The Construction of Domain Ontology and Its Application to Document Retrieval
- WetDL: A Web Information Extraction Language
- Towards Building Knowledge Centres on the World Wide Web
- Navigation Modelling from a User Services Oriented Approach
- Kreios: Towards Semantic Interoperable Systems
- Adaptive Architecture for Web Server Survivability

Information Systems Development and Management

- Integration and Maintenance of Heterogeneous Applications and Data Structures
- A Component Language for Hybrid Solver Cooperations
- Non-interleaved Quadtree Node Codification
- Parameterized Formatting of an XML Document by XSL Rules
- A Middleware Approach to Storing and Querying XML Documents in Relational Databases

Information Retrieval

Parallel and Distributed Data Processing

Multimedia Information Systems

Information Privacy and Security

Evolutionary and Knowledge-Based Systems

Software Engineering and Business Process Models

Network Management
