《Domestic Interiors N》

内容概要

This is a meticulously selected collection of home interiors, focused on the materials and spatial configurations implemented to enhance illuminance and well-being in the private environment. Fully illustrated with colour photographs and explained by exhaustive technical documentation, ground plans and sketches, dozens of examples taken from the best home interiors in the world make this an indispensable volume for anyone working, or aspiring to work in interior design. Among books addressing the subject, this one stands out for its completeness, informative value and stylish presentation.
