《Arbitration and Oral》

内容概要

Arbitration and Oral Evidence, prepared by the ICC Institute of World Business Law, addresses some of the most contentious issues in arbitration procedures. The relationship of written testimony to oral presentation of evidence raises a number of opportunities for abuse. From misleading witness statements to the preparation of unreliable and slanted presentations of experts, the issues raised have divided counsel and arbitrators. This volume, containing papers from distinguished practitioners and arbitrators, provides a balanced and objective view of the problems - and solutions - leading to good general practices that can encourage both fairness and efficiency in the receipt of oral testimony. With this Dossier, the Institute fulfills its dual mission: training and acting as a think-tank for ICC, particularly in the arbitration field. Its chairman since 1999 is Serge Lazareff, a member of the Paris Bar.
