《贝尔政治著作选》

内容概要

《贝尔政治著作选》主要内容：Pierre Bayle was one of the most important thinkers of the seventeenth century. His work was a major influence on the development of the ideas of Hume, Montesquieu and Rousseau. Banned in France on first publication in 1697, Bayle's *Dictionnaire Historique et Critique* became a bestseller and ran into several editions and translations. Sally L. Jenkinson's masterly new edition presents the reader with a coherent path through Bayle's monumental work. This is the first volume in English to select political writings from Bayle's work and to present his author as a specifically thinker. Sally L. Jenkinson will be welcomed by scholars and students of the history of ideas, political theory, cultural history and French studies.
