《Microsoft WINDOWS SC》

内容概要

《Microsoft Windows Scripting自学指南》主要内容：Automate everyday administrative tasks-and take greater control of your Windows networks-with this hands-on guide to scripting .Your instructor ,a Microsoft Certified Trainer with more than a decade of enterprise consulting experience, deftly builds your scripting expertise with labs and lessons you complete at your own pace. From writing your first scripts from scratch with Microsoft Visual Basic Scripting Edition (VBScript)and Windows Script Host (WSH)-to exploring the programmatic advantages of using Windows Management Instrumentation (WMI)and Active Directory Service Interface(ADSI)-you will learn times and ways to set up, deploy, and manage your Windows-based systems.

作者简介
