《概念建模进展》

内容概要

This book constitutes the refereed joint proceedings of seven international workshops held in conjunction with the 25th International Conference on Conceptual Modeling, ER 2006, in Tucson, AZ, USA in November 2006. The 39 revised full papers presented together with the outlines of 3 tutorials were carefully reviewed and selected from 95 submissions. Topics addressed by the workshops are best practices of UML (BP-UML 2006), conceptual modeling for geographic information systems (CoMoGIS 2006), conceptual modeling of service-oriented software systems (CoSS 2006), evolution and change in data management (ECDM 2006), ontologizing industrial standards (OIS 2006), quality of information systems (QoIS 2006), and semantic Web applications: theory and practice (SemWAT 2006).

书籍目录

ER 2006 Tutorials
ER 2006 Workshops
BP-UML 2006-2nd International Workshop on Best Practices of UML
Adopting UML 2.0 Modeling and Transformations
CoMoGis 2006-3rd International Workshop on Conceptual Modeling for Geographic Information Systems
Keynote Spatial and Spatio-temporal Data Representation
Optimizing Representation and Access to Spatial Data
Spatio-temporal Data on the web
CoSS 2006-International Workshop on Conceptual Modeling of Service-Oriented Software Systems
ECDM 2006-4th International Workshop on Evolution and Change in Data management
Keynote Accepted Papers
OIS 2006-1st International Workshop on Ontologizing Industrial Standards
Accepted Papers
QoIS 2006-2nd International Workshop on Quality of Information Systems
Introduction to QoIS
06 Information System Quality Data Quality
Sem WAT 2006-1st International Workshop on Semantic Web Applications: Theory and Practice
Semantic Web Applications (I)
Semantic Web Applications (II)
