《上海漫步》

章节摘录

版权页：插图：Broadway Mansion is now called Shanghai Mansion. Originally the property of a British estate agency, the building used to accommodate only the high-rank staff of British companies in Shanghai. Completed in 1934, the building resembles the shape of a horizontal line "——" with both ends forked; aluminum-steel framed, it is simple and clear in style, characteristic of art deco. The building used to be the highest point of the northern Bund, thus providing the best panoramic view of the whole area.
