## 内容概要

《上海精彩之旅(英文版)》主要内容简介：Shanghai was once known as "Paris of the East". But today, there's no need to use analogy to explain what Shanghai is like. Joining the ranks of international metropolises, Shanghai has developed enough character to make itself known at its own right. With a storied history since the mid 19th century and phenomenal changes in the past three decades, today's Shanghai is old and new, reserved and modern, ordered and chaotic. It exhilarates and intimidates, stimulates and irritates. It is a city trying very hard to make itself a better place to live, work and enjoy. To understand Shanghai is to understand its history. Beginning as a small fishing village about 700 years ago, Shanghai became the national center of textile and handicraft industry in the 15th century as people from the neighboring areas swarmed in. With constant inflow of people from other parts of the country and some earliest Western missionaries and traders, the city evolved into a major trading port and gateway to inland China by the early 20th century. In the past 50 years of economic reform and development, the city opens its door wider for outsiders.

## 章节摘录

插图：The Oriental Pearl TV Tower is located in Lujiazui Financial and Trade Zone, Pudong. With its characteristic design, the tower is a photographic jewel that excites the imagination and attracts thousands of visitors every day. This 468-meter-high (1,536 feet) tower is the world's third-tallest TV and radio tower, surpassed in height only by towers in Toronto, Canada and Moscow, Russia. However, it is the tower's unique architectural design that makes the Oriental Pearl an everlasting attraction. 3 diagonal 7-meter-wide columns, adorned with 5 small spheres, help support the tower; 3 vertical columns, each 9 meters in diameter, comprise the central part of the tower and link the lower (biggest) sphere, the upper sphere and the space module (highest sphere). The design actually corresponds to a Chinese poem: "Pearls, big or small, fall jingling onto a jade plate." The tower is equipped with a 3D lighting system, which makes the pearls sparkle at night.
