章节摘录

插图：The thick and densely planted French parasol trees brought out the charm and glamor of the street and the old houses. Historical recollections Hengshan Road Community starts at Xujiahui. It is the core section of the Historical and Cultural Protection Area of Hengshan Road and Fuxing Road, which is one of the 12 historical and cultural protection areas in Shanghai. It embodies the historical happenings of recent China. The construction of Hengshan Road began in 1892, when the French Concession had already expanded several times. In 1922, the street was named Avenue Petain. Only when the concession was confiscated, was the name changed into Hengshan Road. On both sides of the road, in the deep lanes, and in the short by-roads there are over 1,100 garden houses in different styles. These houses are of Spanish, British, country villa, pseudo-classic styles in terms of architecture, forming a residential atmosphere in a tranquil environment. Almost all of them were sold to the Chinese after World War II. In addition to the garden houses, this area has the largest number of modern apartments in Shanghai. In the first half of the 20th century, there occurred many anecdotes of many legendary people on Hengshan Road. The hundred-year-old Hengshan Road still maintains the European feeling from the first half of last century. Today, on Hengshan Road, the traditional and the modern, the classical and the fashionable, are seamlessly blended.
