《大学英语创意阅读(第2册)(学生用书)》

内容概要

《大学英语创意阅读(第2册)(学生用书)》中This series of six books is designed to develop different ways to study and read English systematically at college level.

In these extensive reading books there is a wide variety of specially written texts. Each unit will help you to understand and appreciate these texts and to become a creative and active user of the language in them. In Creative Reading you will find a number of distinctive features. The books focus on discourse in English: this means that you will become familiar with reading and writing in different genres, such as reports or arguments, and that you will learn to recognize the patterns of ideas and the ways in which texts are organized. The books focus on cultural aspects of using English: this means that they help you to understand the cultures of English speaking people around the world and to develop your skills in intercultural awareness. The books focus on helping you to become a creative reader: this means not only reading to understand the texts but also to use the language creatively, to expand your creativity in English through challenging activities which help you to use your English in new ways. This series focuses on the creative reading, learning and using of English: cultural awareness and intercultural knowledge and skills, responding and reacting to interesting texts, enhancing learning through challenging activities, creative use of language to develop further skills, thinking about and reflecting on topics, beyond the text, interactive practice through discussion activities, variety of topics, text types, and activities, extending vocabulary.
