《世界遗产在中国》

内容概要

《世界遗产在中国(英文版)》内容简介：China, with a recorded history of more than 5,000 years, is one of the four ancient civilizations of the world. From the time of Xia dynasty in the 21st century BC to the late Spring and Autumn period, society was slavery based. From the time of the Warring States period to the Qing dynasty, with Qin, Western Han, Eastern Han, Three Kingdom, Western Jin, Eastern Jin, Southern and Northern dynasties, Sui, Tang, Five dynasties, Song, Liao, Jin, Yuan, and Ming in between, society was feudal. On October 1, 1949, the People's Republic of China was established.

China is a country with vast territory, beautiful landscape, long history and splendid culture. It has rich natural attractions and numerous historical sites: the Great Wall running 6,300 kilometers, the terracotta warriors buried with the First Qin Emperor, the majestic Imperial Palaces of the Ming and Qing dynasties, etc. All these famous cultural treasures and natural attractions have become the precious heritage of the Chinese nation and the whole world.
