前言

一、讲英语为什么开口难 开口说英语是许多在校大学生和社会白领倍感头疼的问题。“哑巴英语”成了全社会普遍关注的一个问题。国务院前副总理李岚清曾说：“我们的普通外语教学，从小学三年级直至大学三年级，花那么长的时间，一个普通大学生毕业出来，既不能看，又不能听，也不能讲，再不研究这个问题，能行吗？”那么，问题的症结在哪里？ 为了回答这个问题，我们以发放问卷的方式在某大学随机调查了109名非英语专业学生（其中本科1年级~4年级每个年级各22名，研究生1年级21名）。在调查中，我们了解到几乎所有学生都有提高英语口语表达能力的意愿（针对“想不想提高英语口语”的问题，76.1%的学生选择了“非常想”，22.9%的学生选择了“一般”，仅有1.0%的学生选择“不想”）。那么，学生平常是通过什么途径练习口语的呢？77.1%的学生选择了“朗读”，33.0%的学生选择了“课堂上在老师的指导下练习”，29.4%的学生选择了“背诵”，20.2%的学生选择了“自言自语地练口语”。而明确表示参加口语角的学生只占11.0%，表示课后定期与朋友练习口语的学生只占4.6%，表示从不练口语的学生竟占13.8%。

章节摘录

When time moved on to Sui and Tang Dynasties , pavilions were constructed in the gardens of the wealthy officials and the scholars. Then the practical function of the pavilion changed into the aesthetic. They were not only used as a place to rest and enjoy the scenery , but also they became a part of the scenery because they were very attractive themselves : The construction of the pavilions had been greatly influenced by the taste of the scholar hermits during the period of Song Dynasty , because those persons had a great favour for the simplicity of a rustic life. The isolated pavilions in the mountainous areas drawn in the brush-and-ink landscape scrolls of that period are the proof. Accordingly , the materials for the construction of pavilions were extended from stone to bamboo , grass and wood. As far as the classification of pavilions is concerned , they have variant shapes if viewed from above. The common ones are round , square , hexagonal and octagonal , together with some unusual forms such as the Nanhai Pavilion with two round pavilions joined together , which is located at the Temple of Heaven in Beijing. As pavilions often provide the places for people to rest , and the pronunciation of the Chinese character 亭 is the same as that of another Chinese character 停 , people have developed the idea that the meaning of pavilions is to stay and rest. While as a fact , originally pavilions served the military and governmental purposes , which is completely different from the general perception.
