## 章节摘录

Therefore , the fact that in book reviews affect is the least frequently used among the three subcategories of attitude is probably because reviewers try not to be too subjective and emotionally involved while reviewing books , or at least they do not want the readers to have this kind of impression. Although book reviews are surely much more subjective than hard news , issue reports and ordinary feature articles , it does not mean that reviewers get to use whatever attitudinal resources to present their views , It seems that most reviewers do not regard affect as an effective device for persuading the readers. It is simply too subjective and personal to convince the readers. That is an important reason why the proportion of affect in book reviews is much smaller than that of judgment and appreciation. Actually , most resources of affect in book reviews are used to describe not the emotions of the reviewer , but those of the characters in novels , the subjects of biographies , and the historical figures in history books. These resources of affect serve to arouse the readers' interests and make them empathize with these imaginary characters or real life people , rather than to convince the readers of the reviewer's opinion. Among the 30 book reviews we investigated , only one of them ( Review : Fiction : Chin , a girl : Lian Hearn enjoys a rich and insightful exploration of the redemptive power of love ) contain resources of affect which directly describe the reviewer's emotional response to the book , thus giving an extremely subjective evaluation of the book. ....

## 媒体关注与评论

深入研究评价问题对研究语言与认知科学之间的关系、分析各类文本特征等都具有重要意义，该书抓住了目前语言学研究中的这一热点问题进行深入探讨，使得研究具有较高的理论价值。在研究方法上，该书较好地将用于评价研究中较为传统的定性研究方法和语料库语言学中的定量研究方法结合起来，使得研究既有深度分析，又不乏可推广性。——梁茂成教授 北京外国语大学博士生导师

本书作者借鉴国外系统功能语言学框架下的评价理论，对该理论做了合理的修正和扩充，并选择了四种英美主流报纸上的书评为自己的分析语料，从而使该研究在理论和应用两方面都有所提升。作为一部语言研究专著，本书结构严谨，行文通顺；在理论上有所创新，在理论的应用上提供了范例，对今后同类的研究具有启示作用。——何兆熊教授 上海外国语大学博士生导师 张韧的

论文系统地研究了英语报刊书评，深入探讨了评价与语类之间的关系，提出了独到的文本评价分析的综合模式。她的研究有较强的理论性，对于深化我国语篇分析研究有较好的贡献。她所设计的综合模式为语篇分析提供了较科学的分析程序。这是一篇有特色的研究论文，研究成果填补了国内这方面的不足。——曲卫国教授 复旦大学博士生导师 我国对书评文章的研究较少，从评价理论的

视角进行研究的更为鲜见。张韧博士的这部著作是目前为止这方面较为少见的力作。该书除了应用评价理论揭示报纸书评的评价系统各个子类的特点外，还借鉴评价句型和评价局部语法，研究了评价现象在句子层面的运作情况，并探讨了评价资源在书评语类结构中的分布模式，具有重大的理论参考价值。——王振华教授 上海交通大学博士生导师
