《初二英语（上外研版）》

内容概要

全国各地深入地进行着，根据课程标准编写的各种版本的教科书给我们带来了许多新的教育观念和气息。为了使“促进每一位学生的发展”这一新课程的理念落到实处，帮助学生提高学习效率，牢固掌握基础知识和基本技能，增强思维能力，我们组织有丰富教学经验的骨干教师编写了这套《初中自主学习课时训练》丛书。《初中自主学习课时训练：初2英语(上)(外研版)》根据外语教学与研究出版社出版的《英语》（新标准）教科书（初中二年级上册）编写而成，《初中自主学习课时训练：初2英语(上)(外研版)》以模块为单位，每个模块分“unit1”、“Unit2”和“Unit3”，并给出相应的练习题，以帮助学生巩固该单元所学的知识。另外，在学完每个模块之后，都根据该模块的学习目标，安排一次“模块测试题”，以便学生检测该模块学习目标的达成情况。本丛书力求体现新课程的基本理念，紧密联系实际，突出自主探究，着力培养学生的学习能力，提高学生的学习兴趣。

《初二英语（上外研版）》

书籍目录

Module 1 How to learn English
Module 2 Experiences
Module 3 Journey to space
Module 4 Education
Module 5 Western music

Revision module A 期中测试题
Module 7 Feelings and impressions
Module 8 Around town
Module 9 Animals in danger
Module 10 Lao She ' S Teahouse
Module 11 The weather
Module 12 Traditional life
Revision module B 期末测试题 参考答案

章节摘录

三、阅读理解 In the universe, there is the sun, the moon, the earth and many Stars. Through our geography lessons, we know the earth goes around the sun, and the moon goes around the earth. We have day and night because the earth keeps turning all the time. When our part of the earth turns to the sun, it is day. When our part of the earth turns away from the sun, it is night. Just because the moon is closer to the earth than the sun, it looks much bigger than the sun.

The sun is bright enough to give out very strong light. The moon cannot give any light at all, but it looks very bright, too. Why? In fact, the light from the moon comes from the sun. There are many other planets in the universe. All of them go around the sun. But of all these planets, only on the earth there are living things and people can only live on the earth, too. But at 9:00am, on October 15th 2003,

Chinese pilot Yang Liwei was sent up to space. He went around the earth 14 times in 21 hours. It was the first time for Chinese to get into space.

- () 1. We find the sun——than the moon because it is——to us.
 A. bigger; farther B. smaller; closer C. bigger; closer D. smaller; farther
- () 2. When our part of the earth turns away from the sun the other part of the earth is——. A. night B. day C. evening
