#### 前言

15 years ago, the young graphic designers in Shenzhen organized a national graphic design contest, i.e. Graphic Design in China 1992, showing the force of Chinese graphic designers for the first time and causing a strong feedback home and abroad. Thereafter, they set up Shenzhen Graphic Design Association, the first professional organization of graphic designers in China, and held the second Graphic Design in China in 1996. Shenzhen, the most successful special economic zone in China, lead the graphic design industry in China, highlighting this cultural sector in the growth of this young city. In 2003, Guan Shanyue Art Museum integrated the social resources and planned, organized and sponsored the Shenzhen Design 2003 fair under the municipality call of culture growth. The success of Shenzhen Design 2003 germinated the idea of biennial China graphic design fair, which began from Graphic Design in China 2005 Shenzhen. Thereafter, the brand Graphic Design in China has got a higher start point and a powerful platform. Now the fair has become a ceremony presenting the high-level, diversity, authority, justness and influence in the society of graphic design in China, causing more and more overseas attention. The fair is a platform that many outstanding Chinese designers take off and a cradle germinating the young generation of designers, and it also raises new design ideas continuously, leading the industry in China to a higher and higher level.
