## 内容概要

《中国职业技术教育(英文版)》内容简介：Technical and Vocational Education in China provides a comprehensive and up-to-date coverage of research on technical and vocational education in China, including the development and its reform trend. The book discusses technical and vocational education of different levels and different sorts, from its development history, regulations and policies, occupation and social obligation to the setup of curriculum and specialty, teaching, faculty, and management, etc. The book is intended for researchers and graduate students in the fields of technical and vocational education. It also helps foreign readers have some idea of the general situation of technical and vocational education in China.
